Please make your dreams come true at our school!!

## Greetings

Globalization is progressing in the world, and the field of your activities has expanded not only to your own country but also to the whole world. The Japan quickly recovered from the devastated conditions of the post-war period and became the third largest economy in the world. There are various reasons why it has grown so far in a small country, and it will be a big hint for everyone in the future. Learn Japanese in Japan country and find your own answers as this country grows for your own growth. And with that answer in mind, let your own dreams come true.

Representative Director Mizuho Egashira

## Founding Spirit

## 照一隅

Sho-Ichigu (Spotlight to Disadvantaged people)

## Educational Philosophy

In order for countries to build peaceful and friendly relations, people must get along with each other with smile on their faces. Our school teaches practical Japanese by fostering human resources who will serve as a bridge between countries in the future, we will contribute to Japan and overseas countries.

## Educational Policy

《Policy on Graduation (Completion) Certification = Diploma Policy》

A diploma (certificate of completion) is awarded to those who have acquired the following abilities and have reached the graduation (completion) certification standards of our school.

- 1、 Japanese ability to play an active role in Japan society.
- 2、 Human ability to promote mutual understanding between different cultures.
- 3、 Adaptability to live in a multicultural society.

《Curriculum Policy》

【Educational contents】

- 1、 Accurately grasp the proficiency level by regular tests and assignments, etc., Classes organized according to the student's level.
- 2、 Exam preparation classes tailored to the needs of students, such as Japanese ability test and Japan EJU.
- 3、 Examination 3, Basic education such as business manners necessary as a working adult after graduating from a higher education institution.

[Educational method]

- 1、 Regarding the understanding of Japanese, Japan culture, and Japan society, not only in the classroom in the school, but also as a field trip, we visit cultural facilities and other facilities and actually observe them, and then practice lessons that make students think for themselves while comparing them with their own knowledge and experience.
- 2、 Firmly convey their opinions and ideas to others through group work and active learning, Practice classes that enhance independence and communication skills while acknowledging the opinions and ideas of others and respecting each other.
- 3、 Faculty members value communication with each student, praise their strengths, and practice lessons that draw out their motivation.

《Admission Policy = Admissions Policy》

Our school seeks people who can live with autonomy by observing the laws and regulations of Japan, local communities and schools, those who have the Japanese basic academic and economic strength necessary for entering the country, and those who understand the educational philosophy of our school and are full of the following motivation to play an active role as global human resources in the future.

- 1、 Those who are interested in Japanese, Japan culture, and Japan society, and who can approach learning with ambition.
- 2、 Those who are full of intellectual curiosity and have an inquisitive mind to actively understand different cultures.
- 3、 Those who are interested in international current affairs and try to grasp things from various perspectives.

### Passed the entrance exam to the Faculty of International Studies, Takushoku University

Nguyen Minh Giang  
(graduated in March 2021)

I have brought dreams and goals to Japan. It was to be a college student in Japan.

Studying at Japan was a lot of difficulties, and there were times when I wanted to give up on my dreams. However, the words of my homeroom teacher at Grand Vision International Academy, "If you don't give up, you will have many chances," reminded me that I would like to work hard. Takushoku University, with which Grand Vision International College is collaborating, has a designated school recommendation, and I took the AO exam of Takushoku University.

I was worried about my first university entrance exam, but thanks to my homeroom teacher who always consulted with me, I was able to have confidence in myself, and I am very grateful.

When I entered university, I was able to meet not only Vietnamese exchange students, but also Japan friends and international students from various countries. At such times Japanese I realize the importance of power.

### I got a job with specific skills

Nguyen Anh Thuan  
(graduated in March 2020)

In April 2020, I got a job with a specific skill "eating out" visa. I work in a cafeteria inside a nursing home.

The reason I got this job was that I was working part-time at this company when I was attending Japanese school. I was working very hard, so the people at the company asked me if I wanted to become an employee.

When I became an employee and worked, it was completely different from when I was working part-time. I have a responsibility, so I can never be late.

There were also times when I felt cultural differences.

However, what I felt was the most important thing to overcome this was Japanese ability. At Granvision International Academy, they taught me Japanese from the basics and carefully, so I

was able to obtain the N3 degree of JLPT in December of my second year.

This has been very useful in my current job.

# Life Support
